

MOHAMMED ZAREEF

Senior Developer & ISP Operations Manager

zareefweb@gmail.com · github.com/menofreact · zareef.top

PROFESSIONAL SUMMARY

Senior Developer and ISP Operations Manager with 10+ years of experience across web development, Linux server administration, internet service operations, and AI/LLM engineering. Built and maintained 30+ WordPress platforms, deployed production LLM pipelines, and led network operations with a focus on reliability, security, and performance.

EXPERIENCE

Operations Manager — Internet Service Provider 2023 – Present

BrainPr Internet Technology OPC Pvt Ltd

- Lead ISP operations: network uptime, bandwidth management, and customer support SLAs.
- Oversee routing, switching, fiber/radio links, and network monitoring/alerting infrastructure.
- Manage technical team, service provisioning, and network expansion planning.

Senior Developer 2019 – 2023

30Shades, Hyderabad

- Developed client web platforms using WordPress, PHP, and custom plugin/theme builds.
- Led production deployments, performance tuning, and security hardening.
- Contributed to architecture decisions, code review, and release pipelines.

AI Solutions Engineer (Freelance) 2022 – Present

Independent — AI/LLM Projects

- Built GPT-4/Claude pipelines for content generation, summarisation, and code assistance.
- Integrated LangChain and Llama.cpp for low-latency local LLM inference on edge devices.
- Deployed AI micro-services (FastAPI, Docker) with secure remote access via Cloudflare Tunnel.
- Designed multi-provider AI routing with auto-failover and cost-aware model selection.

Freelance WordPress Developer & Server Administrator 2015 – Present

Independent

- Delivered 30+ business, e-commerce, and blog websites (WooCommerce, WP-CLI, REST API).
- Administered Ubuntu VPS servers: Nginx/Apache, PHP-FPM, MySQL, SSL, backups, monitoring.

EDUCATION

M.Sc. Computer Science — Gulbarga University, 2015

Completed 2015. Core coursework: Data Structures, Algorithms, Databases, Web Technologies, Operating Systems, Networking, AI basics.

TECHNICAL SKILLS

AI / LLMs: GPT-4, Claude, LangChain, Llama.cpp, RAG, prompt engineering, cost-aware model routing

WordPress: theme & plugin development, WooCommerce, WP-CLI, REST API, Gutenberg

Front-end: HTML5, CSS3, JavaScript, jQuery, Bootstrap

Servers: Ubuntu/Debian, Nginx, Apache, PHP-FPM, MySQL/MariaDB, SSL/TLS, UFW, fail2ban, backups

DevOps: Git/GitHub, CI/CD, Docker, FastAPI, deployment automation, monitoring & alerting

ISP / Networking: routing & switching, bandwidth management, network monitoring, SLA management
